

DOKUMENTACIJA WEB PROJEKTA

CODEMASTER

Autor: Lazar Stojanovski

Godište: 29.11.2005.

Škola: Visoka ICT škola

Godina studija: II godina

Tehnologije: HTML5, CSS3, JavaScript

Godina izrade: 2026

1. Opis projekta

Projekat 'CodeMaster' predstavlja edukativni web sajt namenjen korisnicima koji žele da nauče osnove programiranja i IT oblasti. Sajt sadrži više stranica koje omogućavaju pregled kurseva, prijavu korisnika, informacije o autoru i tehničku dokumentaciju projekta.

2. Korišćene tehnologije

2.1 HTML5

HTML5 je korišćen za kreiranje strukture sajta. Upotrebljeni su semantički tagovi kao što su header, nav, section, footer, kao i meta tagovi.

2.2 CSS3

CSS3 je korišćen za stilizovanje elemenata sajta. Primena Flexbox rasporeda omogućava pravilno pozicioniranje elemenata. Na stranici 'Autor' primenjen je moderni glassmorphism efekat sa pozadinskom slikom i blur efektom.

2.3 JavaScript

JavaScript je korišćen za interaktivnost sajta i dinamičko ponašanje određenih elemenata.

3. Struktura projekta

Projekat je organizovan na sledeći način:

index.html – Početna stranica

kursevi.html – Stranica sa prikazom kurseva

prijava.html – Forma za prijavu korisnika

autor.html – Informacije o autoru
style.css – Glavni stilovi sajta
script.js – JavaScript funkcionalnosti
images/ – Folder sa slikama

4. Dizajn i funkcionalnost

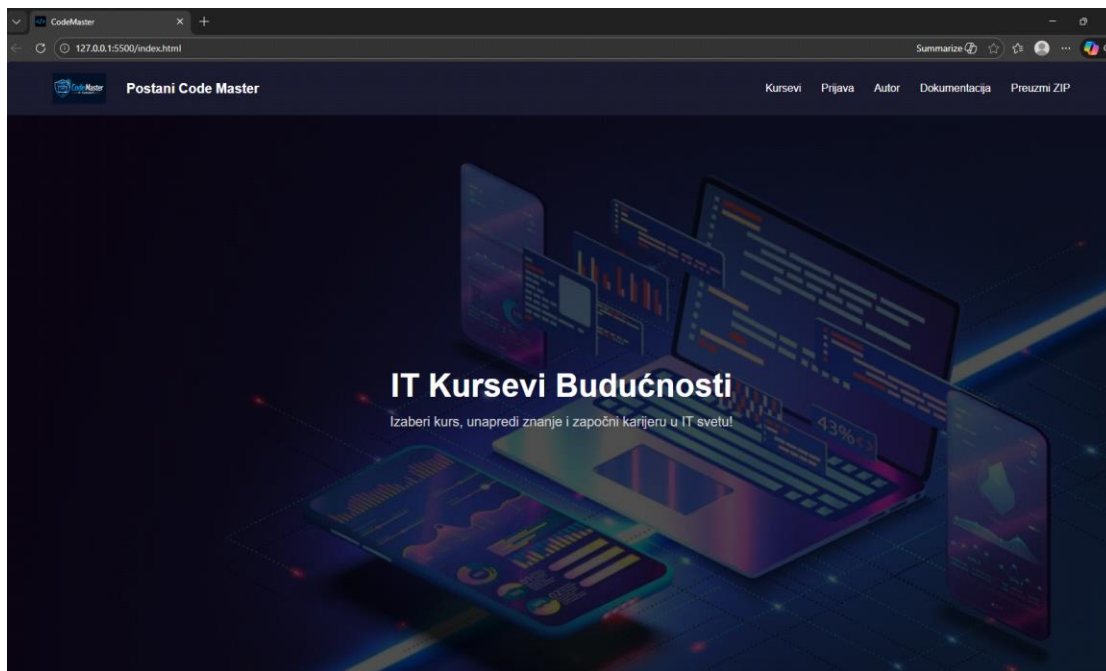

Dizajn sajta je moderan i minimalistički. Korišćene su tamne boje sa plavim akcentima. Navigacija je postavljena u vrhu stranice. Autor stranica sadrži pozadinsku sliku i centrirani blok sa blur efektom (glass efekat). Sajt je prilagođen mobilnim uređajima pomoću responsive dizajna.

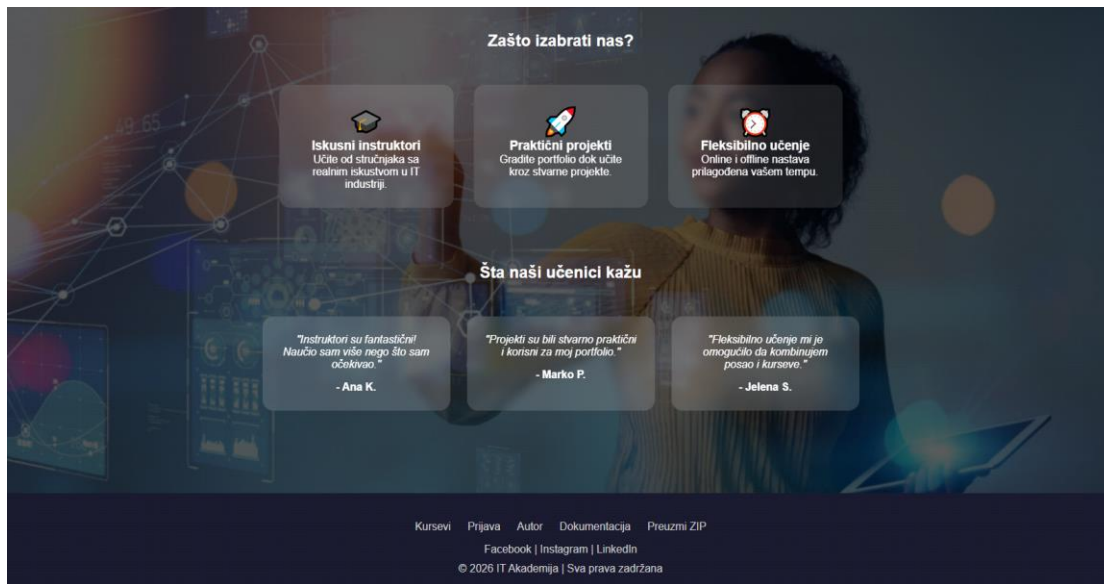

5. Zaključak

Projekat CodeMaster uspešno demonstrira primenu HTML5, CSS3 i JavaScript tehnologija u izradi modernog i funkcionalnog web sajta. Struktura je pregledna, dizajn je prilagođen savremenim standardima, a funkcionalnosti omogućavaju kvalitetno korisničko iskustvo.

6. Screenshotovi i delovi koda
